RE: Notification of Evaluation Results of Ground Water Sources to Determine Direct Influence of Surface Water

Dear Mr. Johnston:

The Water Quality Control Division (Division) has completed an evaluation of the following water sources for the BLUE SKY RANCH INC ASSOC OF OWNERS (the system): Well No. 1 (WL001). The evaluation was performed in accordance with Drinking Water Program Policy 3, *Evaluation of Ground Water Sources to Determine Direct Influence of Surface Water*. The source(s) were evaluated for Groundwater Under the Direct Influence of Surface Water (GWUDI) based upon the findings of the sanitary survey that was conducted by the Division on in 2015.

The result of the evaluation is that the source(s) listed above are not GWUDI and will remain classified as groundwater. The Division will consider this evaluation final unless evidence is presented that conditions with the well(s) have changed to warrant further investigation with regard to the influence of surface water upon the well(s).

If you have any questions, please contact me by phone at 303-692-3527 or via e-mail at [bryan.pickle@state.co.us](mailto:bryan.pickle@state.co.us).

Sincerely,

Bryan Pickle  
Senior Groundwater Evaluation Specialist
